

Milton Reece

For Representative

The announcement of Milton Reece for Representative, which occurs in this paper, comes as a pleasant surprise to his great host of friends and admirers over the entire county.

Rev. Reece has been a resident of New Mexico for nearly sixteen years, and a citizen of Clovis for nearly four years. He has always been a student and careful observer, hence he is well acquainted with the needs of our people. He is a man of more than average ability, and fearless in the advocacy of what he conceives to be right. He stands four square for the prohibition of the liquor traffic and says: "I am in politics until every saloon in New Mexico is put out of business." With L. C. Mersfelder in the upper house, and Milton Reece in the lower house, we predict "there'll be something doing," for Curry county.

J. W. Manning

For Commissioner

J. W. Manning, whose announcement appears in this week's issue of the News for Commissioner of Curry county, has resided in the county for the past nine years, and is therefore well qualified to know the needs of the county. He is a staunch Democrat, having always voted the ticket and worked for the interests of the party. He is a practical stock-farmer of the Holliene neighborhood, and if elected to the office for which he is a candidate, proposes to do his duty fearlessly.

Ambrose Ivy For Assessor

Mr. Ambrose Ivy, whose announcement appears in this paper for re-election to Assessor of Curry county, is a life-long active Democrat. He has filled his present office for about five years, efficiently and consistently. He is one of the earliest settlers in the county, and has labored early and late for the development of Clovis and Curry county.

W. W. Mitchel For Assessor

The subject of this sketch, W. W. Mitchell, hails from Georgia, at least he claims Georgia as his home state, being born and reared to young manhood near Athens Ga. He later moved to Birmingham Ala., where he was engaged in the mercantile business for 18 years and unfortunately met with financial reverses during the money panics, and moved to Curry county about 8 years ago.

He is known as an honest, upright and conscientious man and no man need have any fear of casting his ballot for other than an honest man when voting for Mr. Mitchell.

New Telephone Exchange

While it has not yet been officially announced by the Mountain States Telephone and Telegraph Company, the news has leaked out that Clovis is soon to have a modern, fire proof, brick building to be built by the company. They are said to be negotiating for a location on Main Street and that in the event they fail to secure this they will erect the building on Grand Avenue.

C. C. Baker, Secretary and Manager of the New Mexico Mutual Life and Aid Association, and H. E. Baker, General Organizer for the Company, have secured an automobile and the organizer is visiting every section of Curry county as fast as he can in behalf of the Association. He is meeting with deserved success in this laudable undertaking.

For Sale—Span of good young horses, also good young mare.

C. T. Kirby, 721 E. Bent.
Clovis, N. M.

We invite all our friends to be with us and assist us in this service. A cordial invitation to all. J. H. Messer, Pastor.

Episcopal Church

(Rev. D. A. Sanford, Pastor)

Morning service with sermon at 11 a. m. Subject: "Self Denial in Following Christ." All are cordially invited.

Masquerade Social

The masquerade social in the basement of the Christian church last Tuesday evening was quite a success. More than 100 young people were present to enjoy the event, and they enjoyed themselves too. Light refreshments were served, and the neat little sum of \$12 was realized which will be used by the Young People's Society of the Christian Endeavor in fitting up the basement of the church more fully for social gatherings and other work of the church.

And They Married

First of the week Miss Ruth Downing and a young Mr. Givens, both of Melrose, came into Clovis post haste, and after making a fruitless effort to procure the necessary marriage license here, rushed on to Farwell, Texas. Meeting with the same sad disappointment there, they were soon flying to Amarillo, Texas and there, in some way, this young couple secured the necessary papers and the proper authority and were made one.

The happy pair returned home immediately, and we presume, was forgiven by all concerned. The objection, as we understand to this match was the youngness of the participants.

Misfit suits, pants, odd coats and vests. Bargains at H. Bell's.

When down town shopping stop at Parish Candy Kitchen for your luncheon.

Land For Sale

Two half sections two and one half miles northwest of Clovis.

W. B. Davis, Box 353. 4t pd.

DORT

Dort's Rear Axle

An automobile moves by power being applied to its rear wheels. In turning corners the outside wheels must naturally travel further and faster than the inside wheels.

To permit this without loss of power automobile engineers have provided a series of rather complicated gears, so arranged as to always allow the outside rear wheel to run free when corners are turned. These gears are located in the center of the housing which supports the axle shaft.

There are eight of these gears ranging in size from $\frac{1}{8}$ of an inch face to $1\frac{1}{2}$ inches. The pressure coming on these gears runs into tons. The load carried by the little $\frac{1}{8}$ -inch gears is as heavy as that carried by the big ones. All of these gears must be held in perfect mesh or the axle will be noisy. Dort puts strength into his rear axle by using the finest chrome nickel steel

gears procurable and by double heat treating each part.

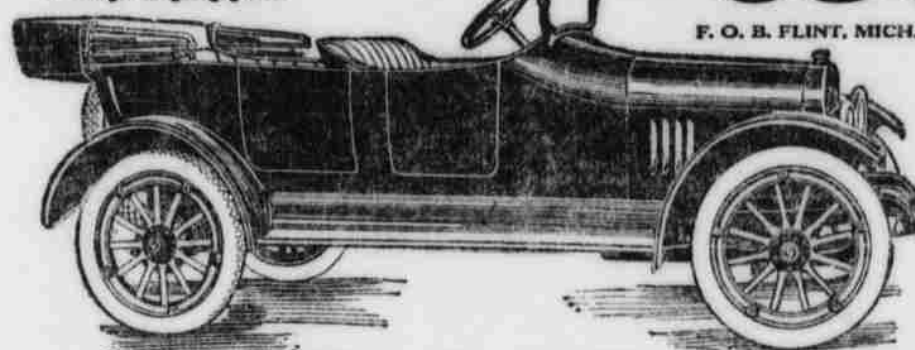

Dort gets silence in his rear axle by supporting these gears and their shafts on 6 sets of the finest ball and roller bearings that money will buy. The result is a rear axle that is as nearly perfect as engineering skill can make it. Like every other part of the Dort car the Dort rear axle is built for all kinds of hard use.

Investigate the Dort before you buy a car.
